

Give Customers Payment Possibilities with eCash

•• No credit card or bank account? No problem.

Having choices allows customers to feel in control of their payment experience when it comes to paying bills and loans. Supporting cash payments as well as digital methods not only gives them the control they seek, it makes it easier for them to pay.

Make Online Payments with Cash

eCash is a convenient alternative to traditional cash. By visiting any of the thousands of participating payment locations, customers can use cash to pay their loan installments and bills. Payments are instantly applied to their accounts and posted to your management system in real time.

Customers can locate the nearest retailer, including major convenience stores, dollar stores and pharmacies, using our interactive map. The payment location handles and deposits the cash so you don't have to.

Over 90,000 payment locations.

Easy Process. Convenient Locations.

To make eCash payments, customers:

- Select 'eCash' as their payment option on your checkout page
- Print the barcode they receive or download it to their mobile device
- Bring the barcode and their cash to the nearest payment location
- Payment locations include Fresco Y Mas, Kroger, Love's, Office Depot, Walgreens and more! A complete list of retailers is available when the barcode is generated.

REPAY[®]

Realtime Electronic Payments

Offering more ways to pay means more timely payments and happier customers.

Increase payment volume
and on-time payments

Ensure security by limiting
personal information
shared online

Drive down operating
costs by eliminating
costly cash handling

Improve customer satisfaction
with multiple convenient
payment methods

Control It All From Your Management System

Manage customers' eCash payments quickly and easily using your preferred management system. Know when a payment is made in real time and track every one, maintaining control over payment data without disrupting your digital payment processes.
